

MaxiRCF™ Trace Centrifuge Tubes (Metal Free)

PUREST CENTRIFUGE TUBE IN ITS CATEGORY

Features:

Pure, additive-free &
Natural colourant Flats caps

Advanced Resin technology
provides uniform wall thickness &
performs Up to 20000 *g RCF.

Works excellently in the
high density gradient
separation of samples

Heavy Metal Free (<1ppb):
Free from 19 major
groups of metals

Screw caps are
certified leak-proof

Withstands breakage &
allows frozen storage at -80°C

Developed from
ultra-low metal resins

100% USP Class VI medical grade
& conforming to US FDA CFR-21

Zinc	Metals included in testing are:				Arsenic
Iron	Aluminum	Phosphorous		Selenium	Lead
Copper	Silicon	Vanadium	Chromium	Cadmium	Boron
Manganese	Nickel	Cobalt	Lithium	Mercury	Silver

Abdos Benchmark of 1ppb

Abdos MaxiRCF™ Trace Heavy Metal-free Centrifuge Tubes are produced to ensure that key trace metals are kept below one part per billion (1 ppb).

3rd Generation of Centrifuge Tube Technology “MaxiRCF™ Trace Metal Free”

ABDOS Life Science Research & Development Wing (ALS-RDW) studied various protocols in modern global research & The need for heavy metal-free products is a fundamental problem solver for different biological samples.

MaxiRCF™ trace metal free tubes development inspired to serve Stringent safety, Quality regulations & New international cGMP & cGLP certification for pharmaceutical & other life science industries.
